Job Title: Full-Stack Engineer

We are seeking a Full-Stack Engineer proficient in React, Next.js, Node.js, and Python.

Responsibilities include:

- Developing user-facing UI using React and Tailwind CSS.

- Building scalable APIs using Express or FastAPI.

- Integrating AI modules such as OpenAI GPT for contextual answer generation.

- Implementing live transcription features using Whisper or AssemblyAI.

- Working with cloud tools (AWS Lambda, S3) and optimizing CI/CD pipelines.

Required Skills:

React, Next.js, Tailwind, Node.js, Express, Python, FastAPI, AWS, OpenAI GPT API, Whisper/AssemblyAI
